

About the Job:

At Girodisc Racing Brakes, you will experience the freedom and innovation of a rapidly growing company focused on technical excellence and best-in-class product quality. We will give you the opportunity to showcase your experiences and skill sets. The position provides you with an opportunity for strong personal and professional growth, receiving immediate feedback.

In your role as a machinist at Girodisc, you will have access to all the tools you need to succeed. All design, development and manufacturing are done in-house.

You must demonstrate exceptional follow-through with attention to detail. You must be able to work autonomously with adequate direction, have excellent communication skills and work well with others.

You will demonstrate continuous process improvement and follow current manufacturing practices.

A willingness to cross-train, punctual and follow instructions.

Duties would include setting up for a prototype or production run of parts, operating the CNC machines, inspecting, and measuring the machined parts and general maintenance/cleanliness of the machine shop.

This is a production machining journeyman level position.

Qualifications:

Minimum requirements we seek:

Minimum of 5 years' experience in production machining required

Capable of programming in Mastercam and adjusting post processor as required

Experience as a lead, managing small cells or teams a plus

Fluent with Haas and Fanuc controls

Proficient with set-ups and change overs

Perform visual inspections as well as dimensional inspection of parts to drawing specifications

Assure adequate deburr / cleanliness of parts

Clean machines as needed

Other related duties as required / directed

Our preferred requirements:

- Passion for motorsports
- 5S and/or lean a plus

What you will receive in return:

As part of the Girodisc Team, you'll enjoy generous compensation benefits that include paid vacation, paid holidays, sick time, medical benefits, profit sharing bonus as well as a company matching 401(k) plan. Not to exclude team holiday festivities, frequent lunch cookouts and team building events.

This job is located in Bellingham, WA.

Resumes and cover letters must be included, apply@girodisc.com
